

Hydrogen Sulfide Reduction AIO Filter

Hydrogen Sulfide Reduction AIO Filter Does Your Water Stink?

Hydrogen sulfide (H₂S) is a nuisance. It adds an objectionable sulfur-like taste and “rotten egg” odor to drinking water. Left untreated, it can also lead to corrosion in plumbing pipes and fixtures.

Features:

- Combines aeration with catalytic carbon technology to effectively reduce sulfur from water.
- No more bad taste or odor.
- No Chemicals to buy, mix or add
- No weekly water tests to perform
- Simple, Fully Automatic regeneration with Air
